PROFESSIONAL SUMMARY

IT professional with 6+ years of hands-on experience supporting users, devices, Microsoft 365 environments and IT infrastructure across education and small-business environments, including identity and access, endpoint management and networking. Worked as the sole on-site ICT technician at one school and as part of a multi-campus IT function at another and independently consults to schools and SMEs. Currently building further capability in Microsoft Azure and endpoint administration. Open to relocation.

TECHNICAL SKILLS

Microsoft 365 & Cloud: Microsoft 365 Admin Center, Exchange Online, Teams, SharePoint, OneDrive for Business, Microsoft Azure, licence and mailbox administration

Identity & Directory: Active Directory, Microsoft Entra ID, Entra Connect, Conditional Access, MFA

Endpoint Management: Microsoft Intune, JAMF Pro, Apple Configurator, Windows 11 deployment, hardware lifecycle management

Networking & Infrastructure: TCP/IP, DHCP, DNS, VLANs, routing and switching, VPN, wireless and connectivity troubleshooting, FortiGate, Aruba, CCTV

Operating Systems & Virtualisation: Windows Server 2022, Windows 10/11, Ubuntu Server and Linux command line, Hyper-V, Proxmox VE, virtual machine provisioning

Support & Operations: Ticket lifecycle management, incident documentation, escalation handling, remote desktop support, endpoint imaging, hardware repair and replacement, end-user support

PROFESSIONAL EXPERIENCE

IT Consultant (Founder)

2019 – Present

EdiVision24 Technologies

- Provide IT support, Microsoft 365 setup and web development services to schools and SMEs.
- Maintain ongoing website support and maintenance relationships with independent schools.
- Developing a Digital Readiness Programme concept for township and rural SMMEs across North West and Northern Cape.
- Run a Hyper-V home lab to test infrastructure, Azure administration and hybrid identity scenarios.

ICT Specialist

Nov 2024 – Jan 2026

Kimberley Girls' High School

- Sole on-site ICT technician responsible for day-to-day IT operations, user support, endpoints, Microsoft 365 and infrastructure across the school.
- Scaled Microsoft 365 licensing from 8 to 400 licences and provisioned 37 staff and educator accounts.
- Implemented Microsoft Entra ID, Conditional Access, MFA and Intune capabilities to strengthen identity and endpoint management.
- Implemented an Ubuntu Server file-sharing solution that improved SA-SAMS access and reduced drive-mapping issues.
- Managed and documented 100+ monthly support requests, including hardware, software, connectivity and user-access issues.
- Completed a hardware write-off audit covering 52 units.

IT Support Technician & Innovation Specialist

Jan 2020 – Sept 2024

St Patrick's CBC

- Supported IT operations across five campuses spanning Windows, Apple and network infrastructure.
- Managed 100+ iPads and Apple TVs using JAMF Pro and Apple Configurator.
- Supported FortiGate firewalls, Aruba wireless access points and switching, and CCTV systems across multiple campus buildings.
- Completed a full high-school computer-lab SSD upgrade in 2023 alongside the IT Manager.
- Assisted with helpdesk support and the design and development of the school's website and online infrastructure; developed the school's COVID management system with the COVID officers.

- Founded the school's Coding and Robotics programme covering drone programming, Micro:bit, LEGO EV3 and Minecraft Education.

ICT Support Volunteer

Feb 2016 – Feb 2017

IIE Rosebank College, Pretoria CBD

- Assisted the college IT department, gaining first hands-on IT experience.
