PROFESSIONAL SUMMARY

IT Infrastructure and Microsoft 365 professional with over six years of experience supporting education and small-business environments. Experienced in Microsoft 365 administration, identity management, networking, endpoint management, virtualisation, and infrastructure projects.

Alongside running EdiVision24 Technologies, I deliver IT consulting and web solutions while maintaining working knowledge of HTML, CSS, JavaScript, TypeScript, Angular, Ionic Framework, Python, SQL, and WordPress. Currently expanding into cloud infrastructure through Microsoft Azure and hands-on Hyper-V home lab projects.

CORE COMPETENCIES

Identity & Microsoft 365

Microsoft 365 • Exchange Online • Microsoft Teams • SharePoint • Active Directory • Microsoft Entra ID • Entra Connect

Infrastructure

Windows Server • Hyper-V • VMware • Ubuntu Server • File & Print Services

Networking

FortiGate • Aruba Switching • TCP/IP • DNS • DHCP • VLANs • Fibre • CCTV

Endpoint Management

Microsoft Intune • JAMF Pro • Windows 10/11

Development Foundations

HTML • CSS • JavaScript • TypeScript • Angular (working knowledge) • Ionic Framework (working knowledge) • Python • SQL • WordPress

PROFESSIONAL EXPERIENCE

IT Support Technician & Innovation Lead — St Patrick's CBC, Kimberley Jan 2020 – Sep 2024

Multi-campus educational enterprise; est. 80–100+ staff and several hundred learners across ECD to High School

- Administered Active Directory and Microsoft 365 Education licensing across all staff and learner accounts, including onboarding/offboarding workflows.
- Led a full post-COVID fibre migration for the entire school campus, coordinating directly with vendors on splicing and connectivity.
- Managed a fleet of 100+ iPads and Apple TVs via JAMF Pro across multiple campuses, including configuration, security, and certificate administration.
- Supported and administered FortiGate firewalls, Aruba switching infrastructure and a 100+ camera CCTV environment across multiple school buildings.
- Designed and delivered a custom CAPS/IEB-aligned robotics and coding curriculum (micro:bit, Lego EV3, Minecraft Education) spanning ECD to High School.

- Founded and ran a school-wide Robotics and Coding Club; earned Microsoft Innovative Educator Expert (MIEE) status three consecutive years (2023–2025).

IT Specialist — Kimberley Girls' High School

Nov 2024 – Jan 2026

- Delivered a zero-data-loss Microsoft 365 email migration for 30+ staff/educator accounts plus 300 student A3 licenses.
- Delivered day-to-day ICT support for educators, administrative staff and learners, maintaining 95% first-call resolution rate and closing 100+ helpdesk tickets.
- Authored a full fibre migration and network redesign proposal to replace legacy DSL infrastructure with a unified, future-ready backbone.
- Deployed a dedicated Ubuntu Server file-share system to stabilise SA-SAMS access and eliminate recurring drive re-mapping issues.
- Implemented Spiceworks ticketing, closing 100+ tickets in a single term alongside 120+ logged on-site support hours.
- Managed ICT asset lifecycle activities, infrastructure planning and procurement recommendations to support sustainable technology growth.

Founder & Director (Part-time Consultancy) — EdiVision24 Technologies 2019 – Present

- Founded and operate an IT services business delivering ICT lab installations, clinic IT setups, and managed web services to school and SME clients.
- Deliver ongoing website maintenance and development for multiple school and business clients (Aster Private Academy, West End Primary School, Kimberley Junior School).
- Advise school clients on ICT strategy, cybersecurity awareness and technology adoption aligned with educational objectives
- Built and maintain a Hyper-V home lab featuring Active Directory, Windows Server, Microsoft Entra ID hybrid identity and domain-joined clients to develop practical Microsoft Azure administration skills.
- Document infrastructure projects and hands-on lab environments, demonstrating Microsoft Entra ID, Active Directory, Hyper-V, networking, and Azure learning.

Junior IT Support Technician — IIE Rosebank College, Pretoria CBD Campus 2016

- Provided hardware and software support to academic staff and students; deployed and configured new workstations and joined PCs to the domain.
- Installed network cabinets and switches for campus use, with full documentation of installed infrastructure.

EDUCATION & CERTIFICATIONS

- **Certificate of Achievement — Software Development, Power Learn Project Academy, Nairobi, Kenya (2023)**
- **Higher Certificate in Information Technology in Support Services — IIE Rosebank College (2015)**
- **National Senior Certificate — Kimberley Boys' High School (2014)**

Certifications

- CompTIA A+ (2016)
- Microsoft Innovative Educator Expert (2023–2025)
- Minecraft Education Ambassador (2024)
- Huawei Cloud Computing Certification (2024)

Professional Development

- Microsoft Azure Administrator (AZ-104) — exam booked 14 September 2026
- CompTIA Security+ 701
- CompTIA Network+ N10-009
